October 19, 2014

Dear Resident,

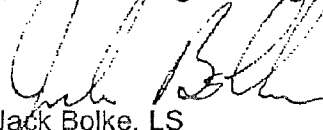

The U.S. Army Corps of Engineers is initiating resurveys of "flowage lines" for various reaches of the Mississippi River. Anderson Engineering of Minnesota has been contracted by the Corps of Engineers to perform boundary surveys of these lands.

Over the next few months Anderson Engineering field crews may need to access your property for boundary and location survey purposes. We may need to search for your buried property corner markers and field locate other signs of boundary evidence, such as fences, and encroachments.

If you have any questions or concerns about the project please contact David Anderson via e-mail at [danderson@ae-mn.com](mailto:danderson@ae-mn.com) or by phone at 763-412-4008. The Corps of Engineers point of contact for this project is Eduardo Torrens-Bonano. Eduardo can be contacted via e-mail at [Eduardo.torrens@usace.army.mil](mailto:Eduardo.torrens@usace.army.mil) or by phone at 651-290-5596.

Sincerely,

**Anderson Engineering of Minnesota, LLC**

Jack Bolke, LS  
Vice President
